Dear Sir:

The United States Department of Health and Human Services along with Loma Linda University Medical Center are Assignees and together own the entire right, title and interest in and to the above-identified application, as shown by the Assignments recorded on December 26, 2001, at Reel 012386 and Frame 0767 and Reel 012381 and Frame 0821 in the patent assignment records of the U.S. Patent and Trademark Office. The two Assignments together represent the entire chain of title of this invention from the Inventors to the Assignees. The two recorded Assignments have been reviewed by the undersigned, who certify that, to the best of their knowledge and believe, title is in the Assignees.

The two undersigned, one on behalf of Loma Linda University Medical Center's right, title, and interest and one on behalf of the United States Department of Health and Human Services' right, title, and interest regarding the above-identified application both hereby declare that all statements made on behalf of their respective Assignees, herein are true, and that all statements made upon information and belief are believed to be true, and further, that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that willful, false statements may jeopardize the validity of the application, or any
